Endometriosis.org

Endometriosis.org is the global platform, which links all stakeholders in endometriosis. It facilitates collaboration and information sharing between women with endometriosis, physicians, scientists, and others interested in the disease. This international collaboration and exchange of experience enables us to deliver up to date, evidence based, information and news about endometriosis. Our goal is to empower women with endometriosis to participate fully in making informed decisions about their treatment options, through the factual information that we provide.

Endometriosis.org is not for profit. The income generated from Google ads, Amazon.com referrals, and any other advertising, is used to pay for the hosting of the site, updates, and general maintainance. This enables us to provide a free, unbiased, informational service to women with endometriosis anywhere in the world.
