## Call My Doctor - My Telehealth Service

CALL MY DOCTOR is a complete TELEHEALTH SERVICE that facilitates the treatment of patients through an Australian registered doctor anywhere in Australia through telephone landlines, mobile devices and video conferencing. Our entire philosophy is to increase the quality of medical service at a reduced cost whilst at the same time reducing waiting times and unnecessary pressure on our current hospital system. We have a team of professional Australian qualified doctors who are available 24 hours, 7 days a week.

Our doctors will provide quality service and outstanding patient care in this new age of ever advancing technology. The field of medicine is always changing and we are pleased to be amongst the leaders of quality Telehealth medicine

CALL MY DOCTOR acknowledges that this service is not a medical or healthcare provider and are not liable for any medical or healthcare services booked using the Site. All medical and healthcare related queries should be directed to your usual or local Doctor.

### How it Works?

This Telehealth service is a diagnosis and management system, education, and other medical care issues performed at a distance. 'Telehealth' is when a patient visits with a doctor via a landline telephone, a mobile device or by video conferencing through a web-based program.
