beyondblue

beyondblue is an independent, not-for-profit organisation working to increase awareness and understanding of anxiety and depression in Australia and to reduce the associated stigma.

beyondblue is an independent, not-for-profit organisation working to reduce the impact of anxiety, depression and suicide in Australia.

Our vision

All people in Australia achieve their best possible mental health.

Our mission

We promote good mental health. We create change to protect everyone's mental health and improve the lives of individuals, families and communities affected by anxiety, depression and suicide.

How we do it

Mental health conditions don't discriminate, and neither do we. Our programs and initiatives support people at all stages of life, wherever they live, work, study and play.

Our goals

beyondblue has four main goals that guide everything we do, and we use our community heart and business head to achieve these. Our goals help us measure the impact of our work, ensuring our programs and initiatives remain focused on achieving our vision and mission.

Our goals are to:

1. reduce the impact of anxiety, depression and suicide by supporting people to protect their mental health and to recover when they are unwell
2. reduce people's experience of stigma and discrimination
3. improve people's opportunities to get effective support and services at the right time
4. use best practices to deliver integrated, evidence-based and cost-effective initiatives through our people and resources.
