Access Comm

Access Comm provides the CapTel phone connects with a free Captioning Service to provide the captions. You can hear the other party, plus read their captions for added clarity.

What is CapTel?

The CapTel phone works like any other telephone with one important addition: it shows captions of everything your caller says. You can listen to the caller and can also read the captions in the CapTel display. Just like captions on TV, only for your phone!

CapTel is a Free Service!

CapTel works with a free Captioning Service to transcribe everything the other person says into written words. There are no monthly fees, no service agreements. Your monthly phone bill doesn't change.
